

Greg Wendt

I have been doing photography, filmmaking and video since the 1980s. I have a BFA in Communications from the New York Institute of Technology, 1987 and an MA in Telecommunications from SIUC, 1998. I have been with CTE since 1999. Photography and videography are my professions and my hobbies. I've made countless videos for the SIU Campus community and many more, independently for clients and for myself. My career began in the film industry in NY. I began as a camera production assistant and worked up to being a first assistant cameraperson. Most notably, I worked on the feature film "Rocket Gibraltar" and the Def Leppard music-video "Hysteria." I moved to southern Illinois for personal reasons, joined SIUC as a grad student in 1995 and soon after I completed my MA, I was hired as Video Producer in the ISS (now CTE) department of Morris Library, where I work to this day. I look forward to continuing to help the SIU Community with video and photography needs.
